

Special Projects for Special Friends

Within our community of faith and fellowship we find a wide variety of needs arise, some of which are beyond what our operating budget can bear. In such cases, we make these needs known for those friends looking for a special way to improve the quality of life for residents or our ability to serve them with enhanced quality, choice or service. The following list provides several examples of current projects we would like to accomplish. If you find any of these projects to your liking or if they inspire your vision for another project you would like to support, please contact our Development Office at 717-824-8816 to discuss how you can bring new light into the lives of seniors. Items with a strikethrough have already been taken.
