

Calvary Homes remains committed to the ongoing safety and health of all our residents and team members as we all deal with the COVID-19 virus.

All of our residents and team members are virus free. I'm so thankful to the Lord.

We are planning to conduct the testing for our team members that work in our health care center which is required by the Centers of Medicare & Medicaid Services. With the positivity rate in Lancaster County being above 5% we will be doing weekly testing until the rate goes below 5% and then will can be doing monthly testing. We are in Step 3 of the Governors "reopening plan". Outside visitations are being done by appointment only. Contact Jodi Smith jsmith@calvaryhomes.org or Jessica Rettew jrettew@calvaryhomes.org to schedule a visit.

Our residents in Personal Care just started in Step 3 on Tuesday. Outside visits are being scheduled and you can contact Jodi Smith or Jessica Rettew to make those arrangements. Please feel free to contact them.

Our residents in Health Care and Personal Care continue to be monitored twice on a daily basis for any symptoms that may be related to the virus. Inside visitation restrictions continue to be in place for our personal care centers with the exception for those at end-of-life situations. If there is something you would like to get to your loved one or friend you can drop it off at the front office at the

Hurter Center main entrance. One of our team members will be happy to get it them.

For our residents living in our main building apartments (Cathedral Hall, Hamilton, Nissley & Hurter) we are now allowing inside visits. Please remember to keep 6' physically distanced and each person should be wearing facemasks during their visits. All visitors are required to enter through our main lobby, fill out our screening form and have their temperature taken when they come and leave. They are to go directly to the resident's apartment and not stop in any common areas, gift shop or café.

We remind all of our team members of the infection controls & prevention plans that we have in place and have been trained on. All of our team go through a screening process, have their temperature taken and are evaluated to make sure they are well enough to work as they come for each shift. We are also taking the temperature of our employees as they leave work as per guidance from the PA Department of Health.

We understand that communicating and seeing your loved one is important and we continue to offer ways to get you connected through video communications with the use of Facetime, Skype, or Facebook. If you are interested please contact Tiffany Phy (Director of Social Services) at 717-824-8836, Lindsay Doughty (HC social worker) at 717-824-8865 or Elaina Keener (PC social worker) at 717-824-8864.

We appreciate your support, patience and especially your prayers during these challenging times.

Clifford K. Hurter, President/CEO
