

Calvary Homes continues to be committed to the ongoing safety and health of all our residents and team members as we all deal with the COVID-19 virus and as the flu season begins.

I'm so thankful that all of our residents are virus free.

Last week when we were conducting our monthly COVID testing for our team members for health care one of our team members came back with a positive test. That team member has no symptoms and is feeling fine. The team member is being quarantine for 14 days.

We did a tracing process and have determined that there has been no exposure to any of our health care residents from that team member.

This Tuesday we tested all of our health care residents for COVID and will continue testing for the next couple of weeks. We are waiting for those results.

We will continue weekly testing our team members as well over the next couple of weeks.

Our personal care centers are in Step 3 of the Governor's "Re-opening Plan". Outside visits are being scheduled by appointment only. Residents are allowed one 30 minute visit per week. If there is inclement weather or too cold the visits will be held inside. This will soon change to all inside visits because of the colder weather. For details about the visit or to schedule a visit please contact Jodi Smith [jsmith@calvaryhomes.org](mailto:jsmith@calvaryhomes.org) or Jessica Rettew [jrettew@calvaryhomes.org](mailto:jrettew@calvaryhomes.org).

Our residents in Health Care and Personal Care continue to be monitored twice on a daily basis for any symptoms that may be related to the virus. In room visitation restrictions continue to be in place for our personal care centers with the exception for those at end-of-life situations. If there is something you would like to get to your loved one or friend you can drop it off at the front office at the Hurter Center main entrance. One of our team members will be happy to get it them.

For our residents living in our main building apartments (Cathedral Hall, Hamilton, Nissley & Hurter) inside visits continue to be allowed. Please remember to keep 6' physically distanced and each person should be wearing facemasks during their visits. All visitors are required to enter through our main lobby, fill out our screening form and have their temperature taken when they come and leave. They are to go directly to the resident's apartment and not stop in any common areas, gift shop or café.

We remind all of our team members of the infection controls & prevention plans that we have in place and have been trained on. All of our team go through a screening process, have their temperature taken and are evaluated to make sure they are well enough to work as they come for each shift. We are also taking the temperature of our employees as they leave work as per guidance from the PA Department of Health.

We understand that communicating and seeing your loved one is important and we continue to offer ways to get you connected through video communications with the use of Facetime, Skype, or Facebook. If you are interested please contact Tiffany Phy (Director of Social Services) at 717-824-8836, Lindsay Doughty (HC social worker) at 717-824-8865 or Elaina Keener (PC social worker) at 717-824-8864.

We appreciate your support, patience and especially your prayers during these challenging times.

Clifford K. Hurter, President/CEO
