

Special Projects for Special Friends

Within our community, a wide variety of needs arise, some being beyond the capacity of the operating budget. We are making these needs known for those individuals interested in providing a special measure of enhanced quality, choice, and engagement for residents. The following list of options may inspire your ideas of other projects you may wish to support. Please contact our Development Office at 717-824-8816 to discuss how you can bring new light into the lives of seniors. Items with a strikethrough have already been taken.
